Roadster, Sports Tourer

Champion on wet surfaces especially when braking, MICHELIN Pilot Road 4 provides versatility and longevity.

Safety in extreme conditions

Exceptional braking in the rain

20% greater longevity

All-season

## Key benefits

### Michelin always aims to bring together multiple performances.

At MICHELIN, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tyre.

### Increased stability for GT motorcycles

Thanks to novel MICHELIN 2AT Technology, you'll feel totally safe on straight stretches and curves alike with your GT, even when heavily loaded, whether alone or with a passenger. Equipped with a revolutionary architecture providing firmness and comfort, the MICHELIN Pilot Road 4 GT is perfect for long trips.

### XST+ technology providing for superb braking on wet surfaces

Thanks to its new XST+ sipe technology, the MICHELIN Pilot Road 4 boasts a 17% shorter braking time on wet surfaces than its nearest rival\*, and 24% shorter times on extremely slippery wet surfaces such as white traffic lines and pedestrian crossings.

### Approved for original BMW R 1200 RT models

Selected by BMW as the official tyre for its 2014 R 1200 RT, the MICHELIN Pilot Road GT displays unmatched performance when it comes to stability and safety.

1. 

Braking tests on wet surfaces and extremely slippery wet surfaces performed by Dekra in July 2013 with new tyres and tyres already used for 3,000 miles, comparing the MICHELIN Pilot Road 4 with the DUNLOP Sportmax Roadsmart II, METZELER Roadtec Z8 Interact M/O, PIRELLI Angel GT Gran Turismo, and BRIDGESTONE Battlax Sport Touring T30F sized 120/70 R 17 M/C 58W (front) and 180/55 ZR17 M/C 73W (back).
